

QUICK CHANGE ALUMINUM CALIPER UPGRADE KITS FOR GM 1982 - 92 F-BODY & 1978 - 88 G-BODY

Upgrade your O.E. single piston disc brake system with our Quick Change Aluminum Caliper Upgrade Kit - all while maintaining your stock wheels!

The kit includes Force 10® SportTwin 2-piston aluminum calipers with two 38mm stainless pistons and high performance pads. It is a direct bolt-on replacement to the stock single piston calipers that came on 1982-92 Camaro/Firebird (non-performance package cars) and 1978-88 Monte Carlo, Malibu, Cutlass, Regal and other G-Bodies.

Simply unbolt the heavy cast iron stock caliper and put the new lightweight aircraft quality aluminum one in its place. The SportTwin calipers are about half the weight of the stock cast iron ones, resulting in a nearly 14 pound reduction of unsprung weight from the front of your car, greatly improving ride quality.

- Features:**
- 2 piston design provides more consistent pressure on the brake pad than the stock single piston caliper
 - More consistent pad pressure reduces pad deflection, thus increasing clamping pressure on the rotor and reducing braking distance
 - Corrosion-free lightweight stainless steel pistons minimize heat transfer to the brake fluid for optimum performance
 - Calipers come standard with a clear anodized finish (optional powder coating available)
 - Add our Turbo slotted and Xtra Life plated rotors for a complete performance look

The Quick and Easy Way To Stop Faster!

Force 10 SportTwin 2-Piston Aluminum Caliper (shown with optional powder coating).
